# CESIG – Regional Sector Strategic Compliance Framework

Steve Pearce, Manager - Compliance, Resource Consents

#### **Overview**

- The role of CESIG
- The Regional Sector Strategic Compliance Framework
- Implementation examples from Auckland
- How can you get involved?

#### **CESIG** who?

- Compliance and Enforcement Special Interest Group
- Regional Sector (regional & unitary councils)
- Compliance and enforcement managers
- One of 20 special interest groups in sector

#### Role of CESIG

#### **Purpose**

- Maintain and improve high professional standards
- Compliance monitoring
- Enforcement
- Pollution response

#### **Objective**

- Share information nationally
- Promote consistency
- Develop best practice across our sector nation-wide

### Why do we need a SCF?

- We all approach compliance strategically
- ...BUT, we lack an overarching framework to help us develop Strategic Compliance programmes
- Need risk-based methodologies as a basis for comprehensive compliance programmes

# CESIG 'fact finding' on Strategic Compliance!!

## What was happening out there...

#### Internationally

- Regulatory agencies embracing risk-based approaches
- Development of broad strategies

#### NZ

- G-REG and the Common Compliance Capability Programme (CCCP)
- Embryonic strategies
- Councils taking on board aspects of strategic compliance

# What is Strategic Compliance?

- Focus on important problems based on risk
- International practice and groundswell of adoption across many jurisdictions
- Transforming approach to compliance

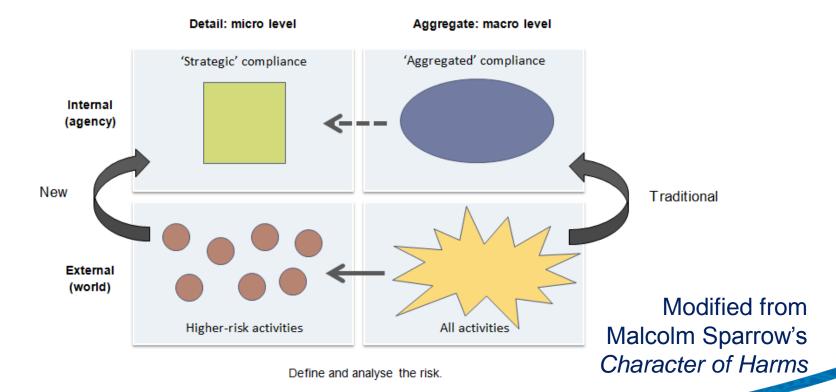

...find important problems, fix them, and tell everyone about it...

- Malcolm Sparrow, JFK School of Govt, Harvard University

#### Theory of compliance operation

## **Project timeline**

Feb 2014

Formed project team

March 2014

Scoping workshop (CESIG)

May 2015

First draft to CESIG workshop

November 2015

CESIG approval

2016

RMG & RCEO endorsement

2016

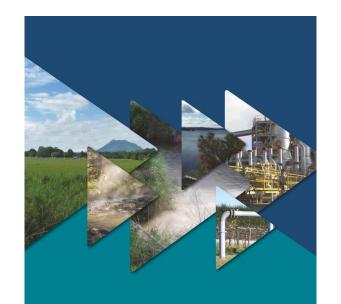

• IMPLEMENTATION!!!!

# The Strategic Compliance Framework

- Provide framework for respective Councils to develop Council-tailored Strategic Compliance Programmes
- Implementation → consistency
- Provide community and stakeholder transparency/ confidence

Regional Sector Strategic Compliance Framework 2016-2018

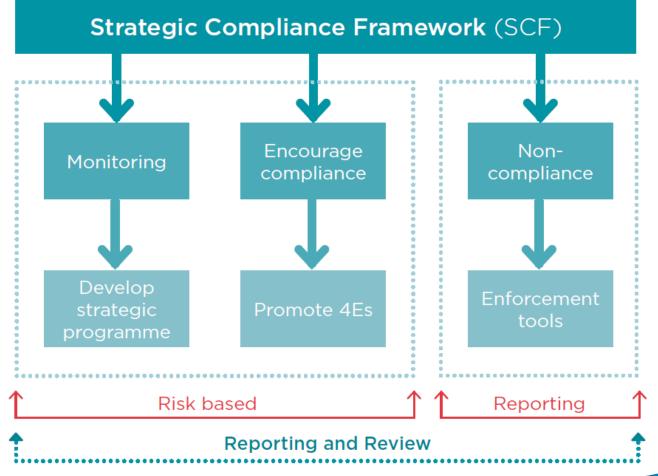

# Objective of Strategic Compliance Framework

"To assist councils in using a consistent approach to developing strategic compliance programmes and a range of interventions to fix important problems."

CESIG March 2014

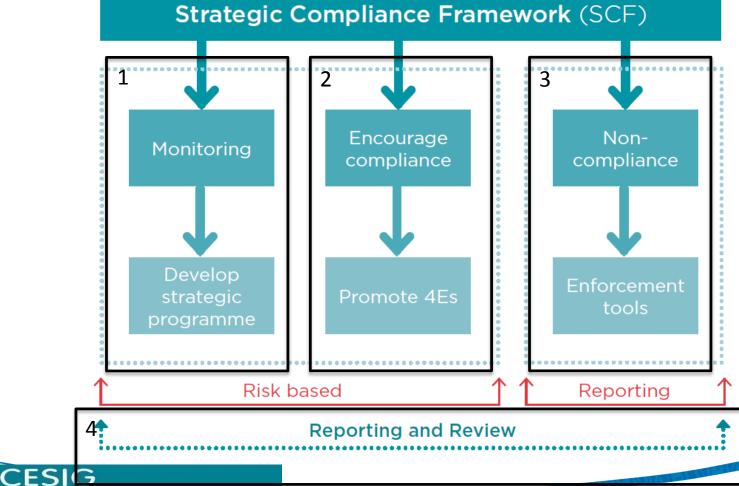

# **Implementation**

- Each Council adopting key components
  - Review existing practices/policies are they in line with the SCF?
  - Ensure new procedures are in line with the SCF?
  - Reporting our progress back to CESIG
- CESIG peer review progress
  - Are best practice elements in place?
  - Are we consistent?

#### **Auckland Council Context**

#### **Resource Consents Compliance Unit**

8 Teams, 95 people, across 5 offices

#### Stuff we do

- 30,000 consents to monitor
- 55,000 noise complaints
- 10,000 other RMA complaints
- 700 abatement notices
- 500 infringement notices

Auckland -1.5million people, 4900km2 and not enough houses...

# **Auckland's Compliance Monitoring**

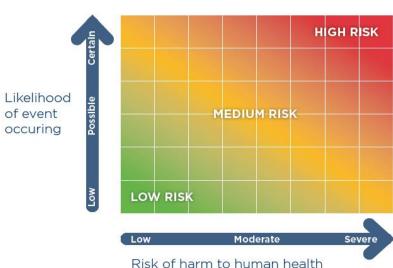

#### Our strategic compliance monitoring programme

- Consents are grouped into smaller "harms" and risk rated
- Consider where to focus effort
- And where to reduce effort
- Prioritise resources

#### **Changes**

- Frequency
- Methodology
- Stop monitoring altogether

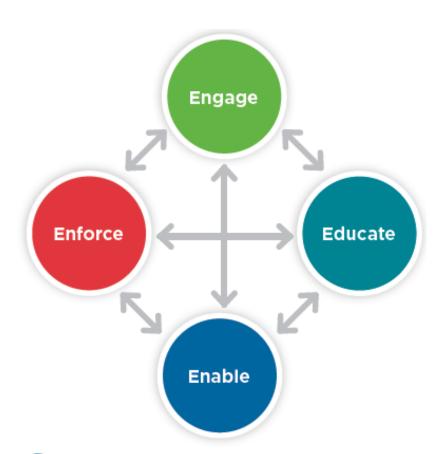

Risk of harm to human health and the environment

# How do we use the 4Es Model???

**Engage** – regulated parties, community, relationships

**Educate** – what is needed to comply, who is responsible

**Enable** – promote best practice, provide advice

**Enforce** – range of tools to change behaviour.

#### **Auckland's Enforcement**

#### Our strategic enforcement procedures

- Enforcement is proportionate
- Consider on a case by case basis
- Officer delegation for ANs and EINs
- Manager delegation for EOs and Prosecutions
- Directive and punitive treated separately

#### **Room for improvement**

Policy needs reviewing

# What about reporting?

- Largely just quantifying what we do
- Not really used for anything
  - Measure "performance"
  - Not policy development
  - Not intelligence
- No annual report
- So, room for improvement!!

# How can you get involved?

- Group together (CESIG or G-REG or similar)
- Borrow our framework
- Do some reading (ie: Sparrow)
- Review your own Council (and be honest!)
- Talk to me or your local CESIG rep we're happy to help

## **Thank You!**
