

PLANNING THE FUTURE

Harrison Grierson is proud to be 100% employee owned, operating nationwide, we're helping plan the future of New Zealand and making our mark on tomorrow.

We'd describe ourselves as determined, accountable and everything we do is done with integrity. The size of our organisation is something our employees love; we're not too big or small so you quickly become an integral part of the business from day one. As we grow, so too does the talented team of people behind us, and it's fair to say that our exceptional people are at the heart of our success.

We're looking for:

- A Senior Planner based in our brand new Parnell office. You'll be a real go-getter with excellent client relationship and people skills. Ideally you'll have considerable experience with resource consenting, policy planning and/or feasibility studies.
- An Environmental Scientist also based in our Parnell office. You'll have a good understanding of a range of resource management issues, and experience preparing Resource Consent applications and Assessments of Environmental Effects. We'll have a wide variety of exciting work for you to get stuck into, working across multi-disciplinary projects.
- A Planner based in Hamilton. You'll enjoy working in a smaller, friendly and collaborative environment with exposure to a variety of projects including residential subdivisions and commercial developments.
- A Senior Planner based in Queenstown. You'll be locally known and have an existing network of contacts within the region. Strengthen your network connections and introduce Harrison Grierson as a player to be known.

All four roles are an opportunity to make your mark and help shape the future of New Zealand.
