

PACIFIC COAST SURVEYS

RESOURCE MANAGEMENT PLANNING CONSULTANT REQUIRED

Based in Mangawhai Heads

Part or Full Time

Pacific Coast Surveys is a medium sized land development consultancy that offers planning, surveying, and civil engineering services. Generally our projects are related to small- and large-scale subdivisions in Auckland, Whangarei and Kaipara.

We are currently looking for an experienced planner to be part of our friendly team. The position will involve taking the lead in preparing resource consent applications. Dedicated support staff will also be available to assist in the preparation and administration of the application documents.

Our preferred applicant will have at least five years' experience in resource management planning and be capable in both the interpretation of Plan documents, the preparation of resource consent applications, and the presentation of submissions to a Council hearing. You will also enjoy working in a relaxed, friendly environment with our dedicated staff.

The position can be full or part time, and flexible working location, days, and hours are fine.

We offer you the opportunity to live and work in one of the nicest and fastest-growing beach towns in the country, and to become a part of our friendly team, whilst just over one hour away from downtown Auckland. An excellent remuneration package is available for the applicant that will provide us with the competence and experience that we are seeking.

If this interests you, please send us your CV to consents@pacificcoastsurvey.com or if you would like to discuss further, please give Adam Booth a call on 094315353.
