

# Seeking a new challenge? We're hiring.

## Manager Resource Consents and Monitoring

Porirua's changing. Thanks to new housing developments, large scale regeneration projects and new transport links, it's rapidly growing into a diverse, well-connected city with big opportunities.

With all that in mind, Porirua City Council is rejuvenating and expanding to prepare for its future growth and continue to develop a resilient, liveable city for our future generations. We're at an exciting crossroads as we shift from a medium-growth council to one with high-growth, and it means big changes to the way we do business and work.

We're looking for an agile, customer-driven leader to head up our Resource Consents and Monitoring team. With your help, we'll be building an open, flexible way of working that will enable us to make the changes we need to get ready for the level of growth we're anticipating. We need someone who's empathetic, with excellent people skills, who always puts the customer first, and who has the energy and initiative to get things done.

In all your years of working in district planning or resource consents, whether your background is in local or regional government or the private sector, this will be one of the rarer opportunities you would've come across in your career. We want someone to bring a fresh perspective and apply experiences to implement change here at Porirua City. We're becoming a much more dynamic council, and you can be a big influence on the form that takes. And if you're joining us from outside the Wellington region, you can look forward to a relaxed beachside lifestyle to enjoy outside of work.

Are you ready for this next step? We certainly are. Join us, and help shape the Porirua that future generations will call home.

If you need more information please call Becky Carr, EA to the GM Policy, Planning and Regulatory Services on 237 1451.
