

Development Engineer

Full-Time

Some places just offer more of what really counts and the South Taranaki District is a perfect example. Our district has some of the most spectacular scenery in the world - Mt Taranaki's majestic cone and the rugged coastline of the Tasman sea - the region boasts outdoor pursuits to satisfy even the most active individual and is alive with opportunities.

We are seeking a suitably experienced and qualified Development Engineer to join us. The role is responsible for approving new developments and applying engineering standards within Council's infrastructure networks, particularly relating to subdivision. The purpose is to ensure that engineering standards are protected and upheld, however you can also expect to provide expert advice on land use and subdivision consents, building consents, and earthquake prone buildings. You will report to the Planning Manager but work across both the Council's Engineering and Environmental Services Teams in responding to customer enquiries regarding land development and Council's infrastructure networks.

If this role appeals to you, head over to our website

www.southtaranaki.com

where you can access the background information and job description for the role. If submitting an application, please ensure you provide a covering letter outlining your skills and experience for the role along with your most current CV.

Applications close at 4 pm on Sunday 15 September 2019.
