

Senior Planner or Intermediate Planner

We have an opportunity for a Planner with the right drive, vision, skills and motivation to join a company that continues to pioneer the way forward. S&L are a long established medium sized firm who have been at the forefront of land development and other projects for the last 50 years in the Bay of Plenty, Waikato and beyond. We are seeking a talented and motivated individual who can continue our tradition of providing excellent quality services for our existing clients and to further build our client base and portfolio.

We are seeking an exemplary Planner to be at the forefront of our planning and design operations in conjunction with the wider company.

You are the right people if you possess the following:

- A tertiary qualification in planning/resource management or related discipline is essential
- Have good quality NZ experience in land use/ development, design, infrastructural and environmental related projects
- For a Senior Planner role you should have a minimum of five years New Zealand planning/resource management experience with at least two years in land development with project management skills; and for an Intermediate role a minimum of three years' experience with preferably one year+ in land development.
- Membership of NZPI or a qualification considered eligible for full membership of NZPI
- A positive can do professional attitude
- A team player mentality but capable of working independently
- Want to enjoy the fabulous Bay of Plenty lifestyle.
- A sense of humour and the ability to 'think inside and outside the square'

What's in it for you:

- Genuine and exciting opportunities to advance your career; significant support for professional development including paid professional membership
- A wide range of projects of varying size and complexity and the ability to lead your own work and project teams
- Competitive remuneration based on skills and experience and the opportunity for significant performance bonuses
- The opportunity to bring your ideas to the table
- Working with a highly cohesive, progressive and reputable team in a growing multi-disciplinary practice.
