About Us

The Bay of Plenty Regional Council is responsible for land, air and water as well as public transport. A major focus of our work involves looking after the environment. We manage the effects of people's use of freshwater, land, air and coastal water. However, we also have a broader responsibility with others for the economic, social and cultural well-being of the regional community.

The Role

Reporting to the General Manager of Strategy and Science, this is a fantastic opportunity to bring your strong leadership capability to this high performing, collaborative and supportive team which includes Urban and Transport Planning and Regional Economic Development. This role is a key member of the Strategy and Science Leadership team and focusses on:

- Providing leadership and increased integration between urban growth, transport planning and economic development;
- Engaging with partners and other key stakeholders in the region to develop and maintain strong and effective working relationships;
- Providing collaborative and strategic leadership, advice, reports and recommendations in transport, urban and economic growth to Councillors and the community;
- Developing and implementing work programmes to deliver on key Council priority areas.

The skills and personal attributes we look for are:

- A person who thrives on the opportunity to lead and influence in a diverse setting;
- A 'connector' who is passionate about building relationships with key stakeholders;
- Significant experience in leading teams to achieve positive outcomes;
- A relevant bachelor degree and technical knowledge and experience in environmental planning, resource management and sustainable management principles;
- A 'big picture' and strategic thinker;
- Experience working within Local Government would be an advantage.
