

Policy Analyst

Water

About Us

Northland Regional Council's vision is for a healthy environment, a strong economy and resilience among our varied communities. We've focused our long-term planning to target priority areas such as enhancing the environment, building a strong regional economy and communities and effective service delivery.

We offer a professional, challenging and positive working environment for our 200-plus staff with our region covering from Cape Reinga to just south of Kaiwaka.

The role

The Policy Analyst is part of Strategy, Policy and Planning Team which looks after council's resource management policy and corporate planning functions.

The role's main focus is assisting with the delivery of Northland Regional Council's resource management policy and planning responsibilities, with a strong emphasis on fresh and coastal water.

The position is based in the sub-tropical city of Whangārei, about two hours' drive north of Auckland.

What you will bring

You will have a relevant degree qualification in resource management, public policy or planning.

You will have knowledge and experience of resource management policy development under the Resource Management Act 1991 - ideally with a focus on water.

You will have a good understanding of the science of water management and able to present complex information to a range of audiences.

You will have at least 3 years' experience in a similar role.

We are seeking someone who is motivated to contribute to the management of Northland's environment - someone who wants to be able to look back on each day's work with satisfaction and gets pleasure from helping people and places thrive.

Check out the position description and apply today via www.nrc.govt.nz/jobs

Applications close at 4pm on 19 January 2020.
