

**WE HAVE AN EXCITING OPPORTUNITY FOR EXPERIENCED PROFESSIONALS TO JOIN OUR EXPANDING TEAM!**

Are you driven by the opportunity to work on some of the most complex projects throughout New Zealand? Do you have the enthusiasm to drive the continued growth of New Zealand's leading environmental consultancy?

We are looking for high-calibre consultants to fill two positions located in our Auckland office. You will assist with our growing workload and contribute to providing exceptional advice and guidance to our clients. These roles will also see you developing further opportunities for our business.

Mitchell Daysh is a specialist environmental and planning consultancy with a nationwide presence. We provide expert resource management advice to many of New Zealand's leading organisations and have a project history that includes many landmark environmental projects. Our culture and the quality of our team sets us apart – we boast many of New Zealand's most respected, knowledgeable and innovative professionals and all our staff are encouraged to get involved and work closely on projects, forging long term partnerships with clients.

This is a fast paced, high productivity, deadline-based business - so we are looking for consultants who thrive in this kind of environment and are up for a challenge. We offer a supportive and collaborative working environment. There are also opportunities for key performers to purchase shareholding in recognition of their contribution to the collective success of our business.

**We have two consultant positions available in Auckland;**

- Consultant – this will suit you if you have five – seven years of relevant experience; and
- Senior Consultant – this will suit you if you have 10 plus years of experience.

**The successful candidate will possess the following:**

- Relevant experience within private practise, public sector or an inhouse planning role is preferable;
- Planning, Resource Management, Environmental Science or Law Qualification;
- Strong technical planning and resource management experience under the RMA;
- Excellent report writing skills and attention to detail
