

Consents Planner - Intermediate or Senior

- Do you preferably have five or more years' experience processing resource consents, or within the resource management field?
- Do you want the opportunity to facilitate development on a permanent and full-time basis within the Coolest Little Capital in the world?
- Do you want the potential for exposure to a vast range of planning issues under the RMA?

If you answered yes to these questions then we'd like to hear from you now!

Our Resource Consents team help make development happen across the city, by processing resource consents and other approvals for proposals that don't meet rules in the District Plan. We are currently seeking an experienced Resource Consents planner to join our awesome team. If you are looking for variety and challenge working in local government then this is the perfect role for you! We have a positive team culture and we've hit the Council headlines for this! Being part of this team will also expose you to anything from the simple to the very, very complex. Think mum and dad additions and alterations, to large scale subdivisions, to high-rise buildings within the CBD; no one day is the same.

As our Resource Consent Planner, you will be responsible for advising our potential applicants at the pre-application stage and to process applications made under the Resource Management Act. You will provide good technical advice to a range of customers on resource management best practice, ensuring compliance with plan rules and relevant legislation. This role provides a broad cross section of work, both land use and subdivision resource consents as well as the ability to become involved in complex resource management issues.

Our ideal candidate will have a relevant tertiary degree in planning, resource management, surveying or equivalent along with proven experience in planning or resource consents. You will also bring your good understanding of relevant legislation along with excellent communication skills and a strong customer focus. It will be wonderful if you have local government experience but this is not a must.

Along with the ability to be part of an inclusive and forward thinking council, you will also have benefits such as five weeks annual leave after two years of continuous service for permanent staff, flexible working arrangements etc. In exchange for your skills, you'll work for an organisation that really values its people - we provide opportunities to be part of our leadership development programme and participate in a number of learning programmes.

So, if this sounds like you, don't delay as you'll miss out on the team outings we're continuously planning!

If this opportunity sounds like something you have been looking for then submit an application now by clicking the apply button below. All applications must be submitted online. To be considered for this role, you should be currently in New Zealand with valid work rights.

If you have any questions, please contact Halley Wiseman, Manager Resource Consents at Halley.Wiseman@wcc.govt.nz

Applications for this role will close on Sunday, 13 September 2020.

We're looking for people who share our passion for Wellington and have the same values that we do - to make our city an even better place to live and work.
