

Senior Planners (Wellington and New Plymouth)

- Shape your community, providing strategic planning consultancy services to 'make every day better'
- Make an impact delivering transformational planning projects, improving transport, city growth planning and natural hazard resilience
- Develop your career working with, learning from, and being mentored by, industry leaders in a fun and collaborative culture

The opportunity | Te kāinga rua

Make an impact in this planning delivery role where you will take the lead working with our clients on unique projects where you will play a senior role in our Central region planning and environmental team. You will be delivering community shaping projects across Wellington, Taranaki, the Manawatu, joining a team that is known locally for our ability to provide high quality planning and environmental consulting advice. We work on diverse projects such as 'Planning for Growth' in Wellington City, the Te Ara Tupua (Nga Ūranga ki Pito-one) walking and cycling link, the Omāroro reservoir, the New Plymouth Coastal Walkway (Bell Block to Waitara), upgrading New Plymouth's drinking water supply and wastewater network (including the recently announced Thermal Dryer Facility), the Pukeiti to Ōākura walkway and the redevelopment of Taranaki Base Hospital (Project Maunga). We lead projects of all sizes for a diverse group of clients and work as an integrated team of 120 planners and environmental scientists across the country.

These roles will provide you with plenty of scope for success with wide exposure to complex projects and clients, providing you with extensive career and professional development opportunities. You will have the opportunity to learn from leading local planners and technical directors as well working in a nationwide practice which includes some of the county's top planning practitioners.

About you | Te rongoā

You will be an experienced planner, who is passionate about making a difference, working in a team that delivers complex community, infrastructure and development projects. We are looking for savvy, innovative, passionate and commercially minded professionals with a collaborative approach who are motivated to be part of, and strengthen, our growing planning and environmental business.

You will need to have a thorough knowledge of the Resource Management Act 1991, with strengths in statutory and strategic planning. This position requires excellent communication skills and a broad understanding of a range of disciplines related to planning matters.

You will also need to have a natural flair for leadership and the ability to engage effectively with clients, stakeholders and the general public. You will have a tertiary qualification in planning and / or resource management and be a full member of the NZPI or working towards this. We have flexibility to shape the role around you, depending on your level of experience.
