

If you want to be part of a sustainable New Zealand and work on exciting multi-disciplinary projects that will help shape our future, we'd love to hear from you.

We are looking for a standout **Intermediate/Senior Planner** who would like to join our national team, based in **Christchurch**. You will be part of a collaborative national planning team that works on some of the biggest planning challenges facing New Zealand today.

We are seeking someone with highly developed problem-solving skills who works collaboratively to deliver the right outcomes for our clients and the environment. You will be able to use your strong communication skills by engaging with stakeholders so they feel that their voices are heard, and be part of planning policy work for local government and private sector clients.

We're currently involved in projects that will make a difference; projects that involve the building blocks of New Zealand – the development and infrastructure that keeps our urban and rural environments moving. We are involved across the project life-cycle, from developing and setting policy, contributing to business cases, developing strategies and securing consents, engaging with stakeholders, project delivery and monitoring and compliance.

#### **The role:**

- Contribute as part of a dynamic team that works nationally and locally
- Work on a range of planning and policy work that brings together many technical disciplines and business sectors
- A fantastic team culture with a focus on working collaboratively in an environment which supports growth and innovation
- Opportunities for career development, e.g. mentoring/preparing you for full membership of NZPI, project management and business development

#### **About you:**

- A comprehensive understanding of the NZ planning system and relevant legislation
- Proven track record in regional council, local authority or private sector planning
- Business development including pre-positioning, preparation of competitive proposals and client management
- Enthusiasm to work collaboratively with other technical disciplines on multi-disciplinary infrastructure projects
- A relevant Planning qualification (a Bachelor or Masters of Planning, or similar). A New Zealand Planning Institute-recognised qualification is preferred
- Full membership of the NZPI (or working towards this)

#### **Our commitment to you**

Fostering gender balance, diversity and acceptance of flexible working is central to the way GHD does business. We offer a professional, friendly and inclusive culture based on our core values of Safety, Teamwork, Respect and Integrity.

In addition to a competitive salary, GHD provides attractive career options including professional development via our GHD Business School, additional leave, and family-friendly flexible work arrangements.

### **Why GHD?**

Be a part of a high functioning team, where everything we do is inspired by a level of passion and professional pride that comes from being employee owned. This ownership is what sets us apart and means our people enjoy an unrivalled amount of autonomy in their roles. It helps drive our passion and accountability in how we serve our clients, deliver projects, and pursue new opportunities.

So, do you have what it takes: passion, collaboration, imagination and values that match our own?

### **About GHD**

As one of the world's leading professional services companies, GHD delivers iconic projects that shape our landscapes, support our communities and set the path of our collective future. To do this, we actively seek and nurture the very best people in their respective fields to join our team of over 10,000 professionals operating in the markets of water, energy and resources, environment, property and buildings, and transportation.

In return, we offer remarkable career shaping opportunities to extend your skills and gain global experience.
