

## Environmental Planner

- Career opportunity within an interesting and innovative industry
- Top Nelson employer, great culture, sizeable business
- Newly created full time, permanent position.

OneFortyOne (formerly Nelson Forests) is a successful and sizeable company managing 80,000 hectares of high quality Radiata pine plantations in the Nelson, Tasman and Marlborough regions of New Zealand. The Company also owns and manages the Kaituna Sawmill near Blenheim. Environmentally certified, OneFortyOne is committed to sustainability and manages its forest according to strict environmental, social and economic standards. A thriving business, OneFortyOne is professional, innovative, and invests significantly in the development of its assets – both people and resources.

Due to increased demand, we need an experienced Environmental Planner to join our Risk Management Team. The objective of the role will be to deliver environmental initiatives and strategies to minimise environmental impacts and ensure the business meets regulatory and voluntary standards.

A busy and varied role, you will be involved in managing and preparing consents including advocating OneFortyOne's interests on working groups. You will have the opportunity to spend time in the forests coaching, training and leading audits as well as overseeing environmental monitoring.

To be successful in this position you will be skilled at building relationships with key stakeholders such as Councils, suppliers and the OneFortyOne team. A tertiary or applicable qualification in a relevant discipline is required, combined with a solid depth of experience in resource and environment management and practical application of legislation. Experience with managing hazardous substances would be highly beneficial.

OneFortyOne offers a positive culture, challenging and stimulating work projects and career potential for those who shine.
