

Environmental Planner

We are currently seeking an Environmental Planner to join our team of committed and dedicated professionals in a fun and rewarding work environment.

The key functions of this role are to process resource consent; provide planning advice and to design, initiate, implement and monitor environmental and planning projects. This also includes implementing resource consent condition monitoring, inspection and compliance duties under the Resources Management Act and bylaws. The position also has a strong focus on advocacy and maintaining partnerships with local Iwi, environmental interest groups, rural landowners and stakeholders.

We are looking for a generalist person with a relevant tertiary qualification and at least two to three years' experience in a related field. A qualification or experience in monitoring and enforcement obligations under the Resource Management Act 1991 would be highly beneficial.

To be successful in this role you will need to have proven skills in project management, advocacy and community liaison, conflict resolution and negotiation skills, and effective interpersonal and communication skills.

If you are keen to secure a role that will keep you challenged and allow you to positively contribute to our diverse community, outstanding landscapes and special natural environment then we want to hear from you. This could be the opportunity you have been waiting for to work with a progressive and highly regarded council. Don't hesitate-apply today!.
