

Senior Planner Christchurch

- Opportunity to join an established nationwide property and planning consultancy
- Help us build our planning business in our Christchurch office
- Exciting projects working alongside experienced planning and property professionals

The Property Group Limited (TPG) is New Zealand's largest independent specialist property consultancy. We lead a diverse range of projects in the property industry. We are on the hunt for a Senior Planner to join our Christchurch team.

About us

At TPG, we are driven by our purpose to deliver property expertise that builds a stronger New Zealand. With over 20 years' experience behind us, we provide a range of property services to corporate, government and private landowners. We work across multiple sectors including transportation, telecommunications, energy, territorial local authorities (TLAs), housing, and corporate real estate. Every day we get to work with clients who are involved in large and exciting projects of national significance. Learn more about the work we do [here](#).

About the role

We are looking to appoint an experienced senior planner in our Christchurch office. This role will complement our South Island team of planners based in our Queenstown and Nelson offices and play a key role in assisting our Christchurch based clients and our Christchurch consultant team.

Our planning team is a talented group of people. They are experts in what they do and have strong technical planning experience in the Resource Management Act (RMA) and urban planning. TPG provides a full package of planning and property advice to our clients, so you will also get to work collaboratively alongside our property, development and Geographical Information Systems (GIS) team.

The range of work you can typically expect to be involved with includes securing resource consents for development projects, preparing notices of requirement for infrastructure projects, processing resource consents for local authorities, and preparing district plan changes.

You will stand out to us if you have the following

We are looking for someone who understands the local planning framework in Christchurch, Selwyn, Waimakariri and to a lesser extent other parts of Canterbury. You will be working in an established office of property professionals and expected to provide technical planning support and leadership within the office. You will report to TPG's New Zealand Planning Director / South Island Planning Manager who is not based in Christchurch, and hence you will need to show the ability to self-start. If you have the following skills and experience, or the potential to develop in these, then we would love to hear from you:

- Seven years or more RMA planning experience, ideally in local government or a private consultancy
- A passion for providing astute and practical planning advice
- Ability to combine your technical planning background with an eye for business development opportunities
- Strong relationship management experience and a track record of forging strong relationships with colleagues (and for those with consultancy experience, clients).
