

PLANNING OPPORTUNITIES ACROSS NEW ZEALAND

Future proof your career with WSP

We value our people, our reputation, and our impact on the future. At WSP our role is to plan, design, manage and engineer our communities to thrive. We want our work to bring long-term improvements and to future proof our cities and environments.

We are looking for a number of Planners to join our growing team across New Zealand and to work on significant national, regional, and community projects. You will be part of a tight-knit group of specialist planning consultants and take advantage of all that WSP has to offer whilst enjoying quality, career enhancing work.

Locations available:

Whangarei – Intermediate Planner
Hamilton - Principal Planner
Tauranga – Principal Planner
Napier – Planner and Senior Planner
Gisborne – Planner
Blenheim – Planner

Due to our continuous growth we will have a number of roles coming up over the next few months. If your preferred location is not currently on the list, please do still apply.

The opportunity:

Your role will be to carry out design and technical advisory work for a range of external and internal clients, thereby contributing to the success of the business unit in meeting its business plan.

Promote a high level of communication within and across organisational boundaries for the benefit of clients, staff and projects.

- Lead/ provide input into the planning of projects and assisting project managers to correctly scope out projects, with appropriate inputs, outputs and verification activities.
- Demonstrate sound knowledge of resource management planning and formulate advice to clients on resource management plans and policies.
- Make sound decisions about technical issues and problem solve for clients to get the best possible outcome for a project and the environment.
- Identify innovative and original resource management planning outcomes that are well thought through and stand up to legal scrutiny.
- Prepare district plan changes, submissions on plan changes and policy statements and supporting technical reports.
- Develop and facilitate collaborative strategies for engaging with mana whenua and local communities to inform project design and outcomes.

You will have:

- A tertiary qualification in planning/resource management or related discipline is essential.
- A member of the NZPI, EIANZ or similar.
- Experience working in the field of environmental planning.
- Dependant on level of role, 3 to 10 years of professional experience in planning/resource management or related discipline.

Although full time is our preference, candidates with part-time / flexible working requirements are encouraged to express interest also.

And how about you? You'll be agile, invested in your career have the technical expertise and the commercial acuity to contribute to our business. In return, we'll offer you a career-defining role, interesting and meaningful projects working with world leading experts. At WSP we foster a culture of collaboration, innovation and success.
